Purpose

This report provides a summary of the testing conducted to verify the proper page load for multiple pages loaded by verifying the title of each web page that gets loaded.

Overview of SideeX

SideeX is an open source record-playback-style web application testing tool. It is an extended version of Selenium IDE with a number of expanded automation capabilities. It runs as an extension in both Chrome and Firefox browsers. Below is a snapshot of the SideeX graphical user interface.

Tests Executed

Automation Testing – Record and Playback

The test cases listed below was recorded using the record feature in SideeX application:

Test Case 1:

- 1) Navigate to the webpage <https://www.wholefoodsmarket.com/>.
- 2) Navigate to the SideeX command line and left click on the X, then scroll down.
- 3) Left click on “verify title”, and in the “Value” field type “Whole Foods Market| America’s Healthiest Grocery store”.

Test Case 2:

- 1) Click on the 1st Tab, “Coupons”.
- 2) Navigate to the SideeX command line and left click on the X, then scroll down.
- 3) Left click on “verify title”, and in the “Value” field type “My Rewards | Whole Foods Market”.

Test Case 3:

- 1) Click on the 2nd Tab, “Local Sales”.
- 2) Navigate to the SideeX command line and left click on the X, then scroll down.
- 3) Left click on “verify title”, and in the “Value” field type “Local Sales| Whole Foods Market”.

Test Case 4:

- 1) Click on the 3rd Tab, “Recipes”.
- 2) Navigate to the SideeX command line and left click on the X, then scroll down.
- 3) Left click on “verify title”, and in the “Value” field type “3,978 Recipes for Delicious Food | Whole Foods Market”.

Test Case 5:

- 1) Click on the 4th Tab, “Shop Online”.
- 2) Navigate to the SideeX command line and left click on the X, then scroll down.
- 3) Left click on “verify title”, and in the “Value” field type “Online Ordering And Catering | Whole Foods Market”.

Test Case 6:

- 1) Click on the 5th Tab, “Customer Service”.
- 2) Navigate to the SideeX command line and left click on the X, then scroll down.

- 3) Left click on “verify title”, and in the “Value” field type “Customer Service| Whole Foods Market”.

The test cases were saved into a Test suite with the name –“Lab 8 – Shruti Charugulla” and then the test suite was played back to verify if the test cases were executed successfully.

Metrics
